REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Upon careful reconsideration, regarding the composition limitation of "... a heat-reactive resin different from said ionizing radiation curable resin ...", Applicants' argument "... motivation or reason for combining the references must be found in the prior art ..." (Remarks, page 4, second paragraph) is persuasive. In particular, the Examiner now agrees that prior art references JP 63-132097 and Mori mainly teach an ionizing radiation curable resin only, while the broad teachings by JP '097 and Mori may encompass the composition of claimed invention, they lack a specificity for suggesting or teaching a separate heat reactive resin. As such, a rejection over prior art would indeed appear to be hindsight oriented, because the reasoning of forming a separate (different) heat reactive resin must be furnished by Applicants' specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Victor S. Chang whose telephone number is 571-272-1474. The examiner can normally be reached on 8:30 - 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Terrel H. Morris can be reached on 571-272-1478. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
